COMMENTS:

This letter has been written by Jiro Vasey - 15 year old resident at 82 Woodward Close. He wished to share his objection with you.

Dear Planning Officer,

My name is Jiro, I'm 15 years old, and I live at 82 Woodward Close, next door to where the above-garage extension is proposed. I would like to object to this planning application because it will have a big impact on my home and my daily life.

I am home educated and currently preparing for my GCSE exams, so I spend most of my time studying at home, mainly in the dining room and my bedroom. Most of our windows face directly towards number 81, and the new extension would block a lot of the daylight that comes into those rooms. It would mean that when I am studying or relaxing, I would be looking out at a brick wall instead of the open view we have now. This would make my home feel darker and much more closed in.

I'm also really concerned about the new roof windows because they would look straight into our house and garden. It already feels like we don't have much privacy, and this would make it worse. It wouldn't feel comfortable working by the window or spending time in the garden knowing people could see in.

I understand that people want to improve their homes, but I think this plan would seriously affect my quality of life and my ability to study properly. I hope you will please take my comments into account and refuse this application.

Thank you for reading my letter.

Yours faithfully,

Jiro Vasey
