COMMENTS:

We own the neighbouring house (Hectorage) to the East. We are happy to support the the building of a new structure however the walls of the coach house make up our garden wall and boundary which is not clear on the plans. The wall is an important feature of our garden. The impact of the removal of this wall and the replacement of a wooden fence will not retain the same feel aesthetic. The plans: "Proposed Coach House Plans & Sections" 20245P11C are not accurate as it shows a gap between the coach h ouse and where the fence is proposed. This is not the case as the east side of the coach house is our wall. Proposed Site Plan of relocated Coach House also shows a 1.6 m fence and the other plans shows a 2m fence.

We wish for the original brick boundary to be retained over a fence.
