COMMENTS:

This highly concerns me. The area is already busy with high volumes of traffic. Cars already try to turn right when leaving the complex, which is prohibited, and more will try this.

Insufficient parking, they should not be clogging up Halfords, Pets at Home or Wickes car parks, so their allocation of spaces is not enough.

The noise pollution of the added cars will be a nuisance.

They will be parking on the streets and pavements, similar to the Mosque on the Oxford Road. Having had the mis fortune to try and navigate this part of town during prayer time recently, its a nightmare.

Will footfall be starting at Fajr, Dawn Prayer? And continuing until the Isha Night prayer? More information needs to be provided on its intended use. But will it be adhered to?

I believe that we already have enough worship places. Why not convert an area in the Moat House Hotel? It is currently full of Muslims, and has a large car park?

Are they aware that there is a very popular food van operating from the car park that sells pork killed in a humane way? Will thgis business be forced out?

At the end of the day, they could all pray at their house, or other mosques.
