COMMENTS:

We object to this development as not in keeping with the area, as it will be in the middle of row of bungalows! It will likely create more parking on the road opposite Malvern close junction, which at times is bad enough with cars parked further along fosters lane already creating blind spots, and Fosters lane is a busy road especially in rush hour times AND School drop off/ Pick up times, which is a safety hazard, 2 parking spaces per house is not enough for a 3 bed 5person house, which could easily have up to 5 cars each. All the extra construction vehicles will likely cause traffic problems/road safety concerns, as well as noise / inconvenience for the immediate neighbours.
