

Objection to Planning Application Number 242067 : Housing development on land bordering Lodge Rd and Tape Lane Hurst

The pictures enclosed were taken from Tape lane over the years and throughout the seasons to support of our written objection .They show Councillors and Council Officers the impact this loss of green space and habitat would have on our village. It will be lost forever if this proposed development is approved.

The proposed development site : A tranquil oasis in the centre of Hurst Village with hedgerows full of nesting birds and wildlife inc foxes, rabbits, a hunting ground for birds of prey, and substantial grazing pasture that can never be replaced.

Local amenity : Horses and donkeys have been grazing here or over 40 years to thee delight of local children.

The winter Landscape

Glorious views of the pasture in the summer

The proposed development site is a popular feeding and resting area throughout the seasons for flocks of wild birds and migrating Canada Geese

**The proposed development site /pasture and surrounding roads
has a history of flooding that has got much worse in recent years...**
