COMMENTS:

There are enough issues with parking down Old Sawmill lane as it is, with residents/companies using it as an over flow for parking from the adjacent roads not to mention dog walkers when Bucklers Park car park gets full, more traffic is not required, resident parking permits would be of use here too without the new planned homes.

There's wildlife including bats, foxes, red kites and owls who will be disturbed by the works along with residents in the area, I don't need any more HGV's using the garages in OSM Lane as turn points destroying both the tarmac and foundations - this is private land but no notice is ever taken of that.

There are more than enough new homes being built in Crowthorne already ref Bucklers Park, I don't see the need for more on the other side of that complex.

I have suffered enough over the last 10 years + from construction/housing projects I don't need yet another year of them on my door step will associated traffic, noise and contractor parking whilst the building works commence.
