

We are seeking council consent to carry out Tree works in the rear garden of Manor Barn, Sonning, RG4 6TH.

The Tree is a Monterey Cypress, which doesn't enhance the amenity value of the area, but does offer ecological benefits. My client does not want to fell the Tree, but would like to enhance more natural light around the summer house and rear garden. Also, the neighbours from the Roundhouse would gain more natural light significantly around their garden and dwelling, and external office. We ideally want to remove 2.5m from the top, and 1.5m laterally, over the garden of the Roundhouse.

Thank you!
R Chalk
