Dear Mr Edwards

APPLICATION TL/2000/2606 – TOUTLEY DEPOT, OLD FOREST ROAD, WOKINGHAM

Thank you for your fax of 17 March. I confirm that the proposed alterations shown on the enclosed drawings are acceptable as a minor amendment to the above permission.

I trust the above is clear, but meanwhile if you wish to discuss the above further please contact me.

Yours sincerely

AO.

My Ref. O2/2421/SRE
Your Ref. TL/2000/2606
Date: 3rd February 2004

Dear Sir / Madam,

O2 (UK) Ltd
2421 – North Wokingham
Notification of Permitted Development

Proposed upgrade of existing O2 (UK) Ltd mast with the addition of an equipment cabin and extension to compound at Ringway Highway Services, Toutley Depot, Forest Road , Wokingham.

I write with regards to the above planning application that was Granted on the 21st November 2000.

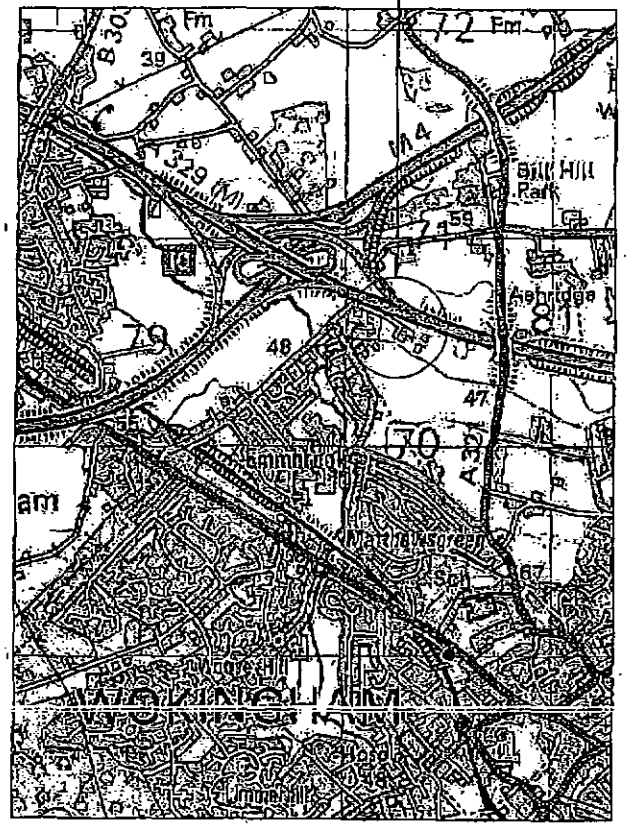

My client is now able to locate the proposed additional radio equipment cabinet within the existing compound. An extension to the existing compound is therefore no longer required. Please find enclosed a set of revised drawings (Dwg Nos.P/2421U/001/A, /002/A, /003/A & /004/A) that reflect this change in design. It is my client's opinion that this alteration will provide a less visually intrusive solution. I would therefore be most grateful if this change to the approved scheme could be dealt with as a minor amendment.

Yours faithfully,

Simon Edwards
Project Planner
For and on Behalf of O2 (UK) Ltd

WORK SHEET FOR : Emy Circuit

Application Number : TL/2000/2606

Applicant : BT Cellnet C/O Grantham, Parsons & Nolan Ltd.

Location : Ringway Highway Services Toutley Depot, Old Forest Road, , Wokingham.
Proposal : Proposed upgrading of existing telecommunications site with addition of equipment cabin and extension to compound.

Site Notice Displayed ? :	YES	NO	DATE
		✓	7/11/00

2 x s/n put up ~~was~~

Date of Neighbour Notifications : .....

Date of Site Visit : .....7/11/00.....

Date Registered : 27/10/2000

Earliest Date for Decision : 17/11/2000

Latest Consultation Date/Site Notice Expiry Date : 17/11/2000

This application will have expired on: 24/11/2000. You need to make a decision 1 day prior to this date for this application to count as determined in less than 8 weeks.

Consultation Responses :

Highways- no objections.
Environmental Health- no objection but comments re risk to health.
Property- council owned land- do not want to enter new lease for proposal until current lease expires - (this is not a planning consideration).
Wokingham Tc- "no objection"

Planning Issues :
Located within industrial/business area in Settlement.
Impact on setting of the area and nearby businesses - (no dwellings nearby)

Application Number: TL/2000/2606

Appraisal :

The proposal is for enlargement of the existing compound to accommodate an additional equipment cabin, with dimensions of 3·7 x 2·5 x 2·8 (high). The width of the compound would be increased but the additional section would not be as deep as existing + would be at the back of the verge nearest the A329(M) highway. It would not be unduly obtrusive as it would be clustered with existing equipment and would be screended from the A329am by existing vegetation. The proposal is for a cabin rather than a mast so there is not the same concern re proximity to buildings with prolonged occupation. Therefore the proposal is considered acceptable.

NOTE location of site on 1:2500 block plan appears to be inaccurate, compound is located at back of verge approximately opposite the boundary of the industrial area and carpark at Tourley depot.

PROPOSED UPGRADING OF EXISTING TELECOMMUNICATIONS SITE ADDITION OF EQUIPMENT CABIN AND EXTENSION TO COMPOUND

LOCATION: RINGWAY HIGHWAY SERVICES TOUTLEY DEPOT, OLD FOREST ROAD, WOKINGHAM

I have evaluated the above proposals and have no objections to planning consent but have the following comments to make in relation to this proposal:

There have been questions raised as to the possibility of adverse health effects from electromagnetic radiation from telecommunication base stations and their positioning in relation to residential development and, in particular schools.

The National Radiological Protection Board (NRPB) was established by the Radiological Protection Act 1970 and is responsible for conducting research and providing advice and services for protection against ionising and non-ionising radiation's in the U.K. They are continually reviewing the vast body of world-wide research on the subject.

The NRPB's current advice is that there is no proven human health risks from these installations. This position is confirmed by the Chartered Institute of Environmental Health and pressure groups such as Powerwatch network . There are however countries and areas of the world where precautionary measures have been adopted , e.g. New Zealand Ministry of Education has issued a policy statement preventing cellular phone antennas from being sited at state schools in the future.

Further research is currently being undertaken into possible health implications although to date no definitive statement can be made.

The NRPB have set up an Advisory Group to look into this matter. This Group has concluded, in reference to buffer zones for sensitive developments, that there is neither a clear basis from which to derive a meaningful assessment of risk , nor is there any indication of how putative risk might vary with exposure. Thus there is no scientific justification for seeking to reduce exposure in these situations and that a decision to do so must be based on social and economic rather than scientific grounds.

The Chartered Institute of Environmental Health's current policy is as follows :

"The CIEH with regard to overhead and buried high voltage power lines, electricity sub-stations, wind generators, microwave and radio transmitters, mobile telephone base stations

and other similar installations emitting electro magnetic radiation (EMR) in close proximity to dwellings considers :

a) That the effect on human health based on current scientific evidence is insignificant and not proven.
b) That there is no convincing national or international scientific research linking Electromagnetic Radiation and deterioration in human health.
c) That a precautionary approach to restricting building or access near such installations (apart from physical safety barriers) cannot be sustained on health grounds alone and if adopted must be based on access, amenity, and public acceptability considerations.
d) That local authorities should adopt a policy on how to address questions from the public on Electromagnetic radiation from such sources."

Please contact me if you require further information.

Applicant:
BT Cellnet C/O Grantham, Parsons & Nolan Ltd.

Your observations are required in respect of this application within **7 days** of the above date.

The Council is the freehold owner of the Toutley Depot site. BT Cellnet have a lease for their equipment compound on site. The operator has approached Property Services with the proposal to extend the existing compound as shown.

At present a new lease for the current equipment has yet to be completed.

As Landlord we would be unwilling to enter into a new agreement allowing this proposal until the outstanding lease has been completed.

Dear Sir,

Proposed BT Cellnet Installation at: North Wokingham, Touley Road Depot, Touley Road, Wokingham, RG40

I refer to my discussion with your planning officer Mrs Heather Morgan on 23 October 2000 with regard to BT Cellnet's upgrade proposals for the above site.

On behalf of BT Cellnet, a licensed public telecommunications code system operator, who are proposing to carry out permitted development in accordance with Part 24 of the Town and Country Planning (General Permitted Development) Order 1995 and in accordance with conditions A.2 (4) and (4A) of part 24, we apply for determination as to whether prior approval is required for the siting and appearance of erecting an equipment cabin measuring approximately 3.7m (length) x 2.5m (width) x 2.8m (height). This is shown on the accompanying location plan and drawings (2421/001, 2421/002, 2421/003).

We enclose a cheque for the sum of £35.00 which is the appropriate fee.

If you would like to discuss this matter or require further information, please contact me on 01676 522080 or 07730 955271

Yours faithfully

Lee Johnson
