

The attached plan shows where T8 Red Oak is, red circle.

Photo of T8 - Red oak.

This tree was a replacement of another tree historically under TPO. As it is a replacement it is not a large established tree and therefore is not visible for local amenity benefit and environmental visual appeal.

In line with application **NUMBER: 252810** we would like to remove the existing tree and replace in another part of the garden, potentially where the drawn black circle is, to allow for a garden room, not requiring planning permission.

Please can you call either home owner on the below numbers for the site visit
