COMMENTS:

This volume of houses will vastly alter the surrounding area and  
inpack the Villages.

The roads can not cope with current traffic. The area will become on  
big mass of housing with very little infrastructure.

Vast country side will be lost never to been replaced which is  
Habit to many animals especially deer. There are other option which  
could be looked at to spread the housing evenly around the brough  
with less inpack to villages
