

Proposed glazing to be double-glazed in compliance with Energy Efficiency, Building Regulations and Historic Buildings. The contractor is to design, supply and install new double-glazed aluminium units (in RAL 7005) to match the specification of existing window designs with the addition of new trickle vents.

All deconstruction works to be carried out in accordance with the NBS specification clause Ac_10_10_20.

All demolition works to be carried out in accordance with the NBS specification clause Ac_10_10_25.

Site clearance to be carried out in accordance with the NBS specification clause Ac_10_30.
