

Archaeological Statement

In relation to planning application reference 230302, please note that the archaeological survey condition was formally satisfied under application reference 242510. Berkshire Archaeology confirmed the following: 'I have reviewed this application and can confirm that no archaeology is needed for this proposal due to previous historic removal of archaeologically significant levels. I therefore recommend this discharge be approved.' On this basis, it is respectfully requested that no archaeological condition is attached to this application. Kind regards
