COMMENTS:

I am concerned mainly about the parking around Strand Way. Introducing 18 new households to the street will simply worsen the current road parking issue. It is obvious that the road section near Liberty House already has quite packed parking most of the time. I can imagine those additional car park from residents and visitors of the new building will just overflow to the rest of Strand Way. In this case, our drive ways may be blocked directly, or will cause the access to driveways difficult.

I would suggest to mitigate the anticipated problem, road marking should be added to most sections, if not all, on Strand Way. Particularly considering it is a very short road, excessive parking will just introduce danger to residence.
