COMMENTS:

Our village cannot cope with the amount of development that has recently taken place, let alone more. There simply isn't the infrastructure to support it. Our schools are already over subscribed, with families being pushed farther and farther out of catchment area for their top choices; our doctors surgery already struggles to cope with the number of patients, often leading to weeks worth of waiting for a routine appointment; during rush hour traffic it often takes 30 minutes or more to drive less than a mile in the direction of the A33. I just can't believe this application is being considered!
