COMMENTS:

I wasn't aware of this application until a neighbour alerted me as it was not visible to passers by. I am concerned that this extension will destroy my view of the terraced gardens seen from my house. It is wholly inappropriate to take almost the full garden, which are small, for a dwelling. The roads are already congested by this gentleman with cars and this will add to more. The corner where he lives is often blocked by cars on the pavement. I am an 80 year old pensioner and often have to walk on the road with my little dog. It is a worrying application and will make me feel hemmed in by bricks and a roof. Please don't allow. Thank you.
