INFORMATIVE

Planning Application 252639 Lower Rivermead Farm Wargrave

The application site for this proposed development falls within an area of archaeological significance and has potential for Roman remains. This is due to the postulated course of a Roman Road which is predicted to run through the fields from the north, running south towards Wargrave. There is the possibility for artefacts related to the road or Roman roadside activity to remain underground. Further information regarding the archaeology in the area can be found online at www.heritagegateway.org.uk/gateway/

Archaeological remains may be damaged by any necessary ground disturbance, therefore you are requested to inform Berkshire Archaeology as soon as possible if any artefacts are discovered. Details of archaeological finds will be added to our Historic Environment Record (HER), an online database of local archaeological sites, finds, and historic buildings within our area, which includes Bracknell Forest, Reading, Slough, Windsor and Maidenhead, and Wokingham.

It is helpful if you can email us of details of the context of the find, along with a photograph of the artefact or structure, including something in the shot to help give an idea of scale.

Our contact details are included above.

Many thanks

Linden Ellicott
Archaeology Officer

Berkshire Archaeology is part of Reading Borough Council's Museum and Town Hall Services and provides historic environment advice to the five unitary authorities of Bracknell Forest Council, Reading Borough Council, Royal Borough of Windsor and Maidenhead, Slough Borough Council and Wokingham Borough Council. This response relates solely to buried archaeological heritage; the Council's Conservation Officer should be consulted for any matters relating to the historic built environment.
