Application Number: F/2000/0655

Appraisal:

The application being considered proposes a single storey front extension, which will project out to the east of the property by approximately 5 metres and is stepped back to the rear to form a conservatory.

Impact Upon the Street Scene

The proposed extension projects out to the side of no.15 by approximately 5 metres, to form a study and utility room. The extension will not project forward of the existing building line of the dwelling, and will have a pitched roof design with a ridge height of approximately 4.4 metres, at its highest point. It is not considered that the proposed extension to the front will have an adverse negative impact upon the street scene.

Impact Upon Neighbouring Properties

The closest neighbouring property to the proposed development at the front of no.15, is no.16 Oregon Walk. No.16 will be approximately 4 metres from the siting of the proposed extension. Given this distance and the single storey nature of the proposal it is not considered that the development will have an adverse negative impact upon the living conditions of this property.
No. 16, 18 and 20 Vermont Woods back onto the side of the application dwelling. However given the distance between these properties and the proposed side extension it is not considered that the development will have an adverse negative impact upon their living conditions.
