COMMENTS:

I would like to write and object to this overdevelopment which joins Wokingham and Bracknell. The fields that will be destroyed are home to many animals, badgers etc and once this land is gone it cannot be replaced. Why, at a time when food security becomes more and more important are we allowing farmers fields to be decimated for the building of more houses than they towns amenities cannot support ? Dr's Dentist? for example. To decimate farmland (which also does a very good job or reducing flooding) and build more houses, meaning more cars, more pollution and then offering a 'SANG' space is just madness. The green space does not need a suitable alternative, it needs to be left as it is. Wokingham has been decimated by these overdeveloped new estates, bringing more people in without having any amenities added to the town. This is not sustainable and should be stopped.
