COMMENTS:

The green areas around this estate are being taken from us, wild life have regimes to this area having been ousted by the building at the bottom of Toutley Road. The proposed drive exiting onto Old Forest Road is just an accident waiting to happen. So many children walk and cycle to school and there is obviously with 53 homes going to increase vastly the amount of traffic along this road. Increased pollution will be detrimental to the health of those in this area. Many of us have enjoyed walking through these fields into the bluebell woods and on into the land on the far side of the new road in safety rather than crossing the busy road.
