

CAD LAYOUT

Bartlett Arboretum

This design is produced by the UK Lighting Design team based on information supplied by the customer for the purpose of identifying suitable product location and positioning. This design cannot be used for Construction, as this design does not purport to eliminate health and safety risks as a CDM Regulation risk assessment has not been undertaken. Depending on the level of information received, a number of assumptions may have been applied in order to create an indicative lighting proposal and costing model, according to lighting industry guidelines and incorporating industry best practice methods. These assumptions are documented and will require confirmation by the Principle Designer (which is not UK Lighting Design) during the detailed design and build phase.
