COMMENTS:

I wish to object to this application for the following reasons and strongly request that it is denied:

1. This development is not in the local plan 2.
2. The whole point of making School Road a no through road was to make it safer for the schoolchildren.
3. The only difference between this application and the previous one which was rejected is the reduction in the number of houses, so the reasons for rejection remain valid. Once again the infrastructure will not support an additional development such as this. It is very difficult to obtain a doctor's appointment as it is with all the additional population because of the building work still on going in this area and the proposed housing at Hall Farm.
