COMMENTS:

As my house is likely the most affected being directly opposite not just the 3 blocks but the proposed main entrance my major concern is the extra I guess 48 cars ( 1 per property minimum plus visitors and delivery vans ) and vans that daily will be going in and out directly in front of my property.

When Liberty house was changed to private dwelling the traffic went up massively with vehicles at all times parked on Strand way day and night to unless you put double yellow lines down this will be the case opposite my shared drive meaning we cannot safely get out I had suggested using the existing entrance into Liberty house but this was rejected .

Strand Way as a dead end is already a traffic nightmare, so adding 48 or more vehicles daily will be untenable
