COMMENTS:

Would not have a problem with this project if the chosen location would not impact Shinfield team and all the community evolved.

In any project some negative consequences can occur, and in those cases a mitigation plan is required.

In this situation, the Shinfield Football Club story, tradition and rights seems not have being considered. More than 50 years using, investing, and looking after that location, with several teams in different ages, and all the families involved in sports would deserve more consideration.

If a suitable mitigation plan was presented perhaps this project could be welcome, but that is not the case.

Kind regards
Mr Joseney
