Informatives

1. Great Crested Newts are a protected species under the Conservation of Habitats and Species Regulations 2017 (as amended). This site is wholly within a red risk zone according to modelling undertaken to inform a Borough wide licence issued by Natural England. Red zones contain suitable habitat and most important areas for Great Crested Newts. The permission granted does not provide authorisation for development to proceed under the Wokingham Borough Council District Licence for Great Crested Newts. Should any Great Crested Newts or evidence of Great Crested Newts be found prior to or during the development, all works must stop immediately and an ecological consultant contacted for further advice before works

can proceed. All contractors working on site should be made aware of the advice and provided with the contact details of a relevant ecological consultant.

2. Whilst it would appear from the application that the proposed development is to be entirely within the curtilage of the application site, the granting of planning permission does not authorise you to gain access or carry out any works on, over or under your neighbour's land or property without first obtaining their consent, and does not obviate the need for compliance with the requirements of the Party Wall etc. Act 1996.

3. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development as set out in the NPPF.
