COMMENTS:

Dear Sir/Madame

I'm writing this comment to express my strong faith and support for the planning application submitted by Muslim community in Wokingham to establish an Islamic community centre and mosque at Unit 4, Wokingham RG41 5QS.

The proposed community centre and mosque contribute to local opportunities and positive impact on social, cultural, educational activities for all ages, interaction between different cultures, attracting visitors, Build a good reputation for Wokingham area.

As we all know for every plan there are some objective challenges and excellent opportunities for the brainstorming however the commitment of project leaders to work closely with the council to find a right resolution for the concerns of people about parking and traffic.

I urge the Wokingham Borough Council to approve this planning application recognising the positive impacts of diversity.

Sincerely
