COMMENTS:

Object. Reasons are:

- the entry road to Winnersh Fields is narrow and controlled by a barrier. Not sure how this would be controlled to safely allow people in and out of the site.
- to add to the above, there is limited access for those with limited mobility e.g. wheel chair users and disabled people so this provides a serious health and safety risk
- the building is already occupied by tenants
- the lack of communication of the plans as there was no notice on the site and for me and others who work in Winnersh Fields only heard about the plans from unofficial channels (word of mouth) and not any council notice which the requestor should have informed us.
