COMMENTS:

The plans look good and will definitely improve the house.
I agree extra car spaces are needed as the house is on the main road just down from the bend and is opposite the newsagent where often cars are parked outside. Having extra spaces will reduce the likelihood of cars being parked outside the house and so free up the road.

It may be a good idea to put frosted glass on the upstairs Ensuite and Walk in Wardrobe/Changing room windows for privacy as our back bedroom window will have views down onto them.
