Head Planning and Transportation

21 November 2000

Application Number: F/2000/2787

Appraisal:

Development:

The proposed development is for a single storey rear extension to form a utility / breakfast room.

It would be 2.6m wide and 3.3m deep and would infill the area behind the existing garage and to the side of the existing kitchen. It would have a flat roof and stand 2.8m high. There would be no windows in the side elevation and a door and window in the rear elevation.

1. Impact upon neighbouring properties

The proposed development is set 0.9m away from neighbouring boundary at its widest point and 0.7m away at its closest point (however those properties are set around 10m away from the boundary). It has a flat roof, which would be unobtrusive to neighbouring properties. The height of the extension would be less than that of the existing garage, which has a pitched roof; so it is considered that there would be no overbearing effects. The window is at a ground floor level and is to the rear of the property so would cause no overlooking. It is therefore considered that there would be no adverse effects upon neighbouring properties.

2. Impact upon the street scene

The proposed development would be obscured from the front of the property by the existing garage. Materials would match existing so there would be no adverse effects upon the character of the street scene.
