COMMENTS:

We do not need any more houses in this area, I've lived in Spencers Wood for 23 years and it's changed dramatically. Land has been taken over by the wild life with no consideration on what happens to them. There was a lot of green land when I moved here now it's being eroded. More housing adds more traffic to the roads and more people needing a GP. Yet we have had no new surgeries built or improvement to the road structure since this massive increase in housing over the years. I strongly object to any more houses in this area. It seems we in this area are having to cover what Wokingham council have promised. I hope this is rejected.
