01 Adjacent soft landscaping / existing grassland.

02 Growing medium within tree pit. 400mm ameliorated topsoil and compost mix.

03 Weed free circle around base of tree, mulched with 50mm depth specified mulch.

04 Refer to Planting Plan for tree species and size.

05 Tree stakes, 2 no. per tree, machine rounded, pointed, 2400 75mm. Additional timber cross bar required, 900 x 38 x 75mm. Tree stakes to finish 1500mm above ground, cross bars secured to stakes with sheralised screws. Tree stakes to be cross braced with Toms Big Block (L3) and 25mm self reinforced rubber belt. Supplied by Toms Tree Ties or equal approved.

06 Root/Rain Metro Code RFP/CA manual irrigation system. Supplied by GreenBlue Urban or equal approved.

07 Backfill with 300mm of approved coarse washed sand.

08 Base of tree pit broken up to min 150mm and tree draining.

- 01 Adjacent soft landscaping / existing grassland.
- 02 400mm ameliorated topsoil and compost mix.
- 03 Weed free around base of hedge, mulched with 50mm depth specified mulch.
- 04 Hedge to be planted in double staggered rows 500mm apart (7 plants per metre). Refer to Planting Plan for hedge species and size.
- 05 Plants to hedge to be supported by canes and ties without tree shelters.

	1m wide native hedge, mulched with 50mm depth specified mulch
	Proposed orchard & hazel copse, mulched with 50mm depth specified mulch
	Allotment plots, 450mm of topsoil
	1.2m wide instant turf paths to be same level as plots
	Seeding to reinforced grass parking area
	Wildflower meadow mix
	1.83m high weld mesh fence with matching double / single access gates & rabbit proof fencing to base

This drawing is based on Murdoch Wickham drawing

Tree Pits

The base of the tree pit is to be backfilled with imported washed sand and the final 400mm of the pit backfilled with topsoil. The upper 200mm is to have a 30mm compost layer mixed into the topsoil.

Nursery stock trees are to be supplied by Barcham
Trees in Light Pots.
www.barcham.co.uk

Tree stakes shall be machine rounded stakes 2.4 metres x 75mm diameter, with one end pointed. Two stakes shall be driven into the base of each pit equally distant from the trunk either side of the rootball, so that 1.5m remains above finished ground level. A cross band 900mm x 38mm x 75mm shall be secured to each post with sheralised screws. Trees shall be secured to the cross bar using a Toms Big Block (L3) in conjunction with 25mm special reinforced rubber belt as supplied by Toms Tree Ties' (www.toms.co.uk/catalog) or other equal and approved. Each belt is to be secured to the cross bar using 4 galvanised nails per strap.

All multi-stems are to be secured underground using 'Platipus' Tree Anchoring and Plati-Mat system Product code RF1P (www.platipus-anchors.com) or similar and approved. Fixing should be strictly in accordance with the manufacturer's recommendations.

Amenity turf such as George Davis Trident Turf, or similar and approved is to be used where turf is specified. Grass paths are to be formed of two turf widths wide i.e. 1.22m.
www.georgedaviesturf.co.uk

Wild flower areas are to be sown with Emorsgate Seed Flowering Lawn Mixture EL1 at 4g/m² and oversown with EG22 at 10g/m² for quicker establishment.
www.wildseed.co.uk

Apply Agrosii LR pre-seed fertiliser at 50g/m² prior to seeding with Germinal A22 Low Maintenance seed mix sown at 50g/m² (or similar and approved). A very light top dressing may be applied to just cover the seed and to provide adequate germination conditions.

Plants to the hornbeam hedge are to be supported by canes and ties without tree shelters.

Mulch newly planted trees and hedgerows with 50mm of Melcourt Contract Bark Mulch.
www.melcourt.co.uk

Rev C5	10.10.25	Paving slab to plots & additional shed added
Rev C4	02.09.25	Paving added beneath watering points & locations adjust
Rev C3	28.07.25	Seperate numbers added for orchard hedging
Rev C2	26.02.25	Mains water meter and connection added
Rev C1	21.02.25	Issued for construction
