Work Site

Back Garden 16 Church Mews

T1 Oak

Findings

- One Mature Oak Tree, situated in the right hand corner of the rear garden.
- Tree needs crown size containing so it dose not eventually out grow its space.
- Crown has become dense after years of pruning.
- Potential for regeneration growth to fail.

Recommendations

- Reduce entire crown 15% by reducing side growth and hight by a maximum of 2.5m concentrating manly on the arias of the crown that protrude the furthest, taking crown back into previous reduction points.
- Rase crown up to 3.5m above ground level.
