For the attention of: Natalie Brown

Dear Madam

SIDE EXTENSION - 124 BARKHAM RD, WOKINGHAM

Thank you for your letter dated 28 March 2000 which was received on 31 March 2000. You are asked to quote the following reference in any correspondence: **SU86NW/16/24.** The Environment Agency has the following comments:

The Environment Agency has no objection, in principle, to the proposed development provided that the following conditions are imposed on any planning permission granted:

PLANNING CONDITIONS

CONDITION: Surface water source control measures shall be carried out in accordance with details which shall have been submitted to and approved in writing by the Local Planning Authority before development commences.
REASON: To prevent the increased risk of flooding and to improve water quality.

PLANNING INFORMATIVES

The following planning informatives should be attached to any planning permission granted:

Under the terms of the Water Resources Act 1991, the prior written consent of the Environment Agency is required for any discharge of sewage or trade effluent into controlled waters (e.g. watercourses and underground waters), and may be required for any discharge of surface water to such controlled waters or for any discharge of sewage or trade effluent from buildings or fixed plant into or onto ground or into waters which are not controlled waters. Such consent may be withheld. *Contact J C Hall on 01276 45 4393 for further details.*

ADVICE TO PLANNING AUTHORITY

Waste Regulation: Contact Miranda Wycherley on 01276 454384

Cont/d..

Environment Agency
Swift House, Frimley Business Park, Frimley, Camberley, Surrey GU16 5SQ
Telephone : 01276 454300 Fax : 01276 454301

According to our records, there is one landfill site within 250 metres of the site, as follows:

Grid reference	Distance from site	Landfill name	Details
SU 802 678	110 m	Molly Millars Lane	no information

In view of distance and the type of development proposed, it is unlikely that landfill gas will present a risk to this proposal.

Development Control: Contact Amanda Reed on 01276 45 4331

There are alternatives to conventional storage for the control of surface water run-off that are favoured by the Environment Agency where ground conditions are suitable and groundwater is not at risk. These techniques not only cater for flood peak attenuation, but may also improve water quality and enhance the environment. Such systems include permeable pavements, grassed swales, infiltration trenches, ponds and wetlands. The developer is advised to discuss with the Agency how these techniques might be applied at this site.

In order to manage the disposal of surface water in a more sustainable manner, taking into account flood risk and other environmental factors, the Environment Agency is likely to recommend that restrictions are imposed on the discharge of surface water from the site. Particular care must be exercised where there is an increase in the impermeable area. The developer will be required to accommodate excess water and control its release into local watercourses, whether directly or by means of the local surface water sewerage system.

We are not aware of any watercourses on the site, but should there be any, we advise that:
(1) they should not be culverted; and
(2) a buffer zone is left on either side of any watercourse, and
(3) a buffer zone is left on either side of any watercourse, and
(4) culverted watercourses should not be built over, but should ideally be opened up and made a feature of the site.

In any case, you should note that culverting of a watercourse requires the prior written approval of the local authority under the terms of the Public Health Act 1936, and the prior written consent of the Environment Agency under the terms of the Land Drainage Act 1991/Water Resources Act 1991. The Agency seeks to avoid culverting, and its consent for such works will normally be withheld.

ADVICE TO APPLICANT

Environment Protection: Contact Nick Weddell on 01276 454405

Surface water from hard surfaced areas should discharge via deep seal trapped gullies incorporating a minimum water seal of 85mm or similar.

Roof water downpipes should be connected to the drainage system either directly, or by means of back inlet gullies provided with sealing plates instead of open gratings.

Cont/d..

All sewage or trade effluent should be discharged to the foul sewer if available subject to the approval of Thames Water Utilities or its sewerage agent.

DECISION NOTICE

Would you please forward a copy of the decision notice to this office quoting our reference.

A copy of this letter has been sent to the agent.

If you have any further queries please do not hesitate to contact myself on 01276 454 323 quoting the reference cited at the beginning of this letter.

Yours faithfully

Sarah Paxman
Development Planning Officer

Received by Wokingham District Council

Application No: F/2000/0961

Proposal:
Proposed single storey rear extension to dwelling.

Location:
124, Barkham Road, , Wokingham.

The application is available for inspection at Wokingham District Council's offices during the following times:

PLANNING DEPARTMENT, SHUTE END, WOKINGHAM TEL (0118) 974 6428
8.30 - 5.00 Monday - Thursday & 8.30 - 4.00 Friday

WOODLEY LIBRARY HEADLEY ROAD WOODLEY (9.30am - 7.00pm Mon, Thurs & Fri. 9.30am - 5.00pm Tues, 9.30am - 1.00pm Saturday. closed all day Wednesday). If you intend to view this application at Woodley Library (see details above) please allow 4 days from the date of this letter for delivery of plans.

Comments should be sent in writing QUOTING THE APPLICATION NUMBER to the Case Officer Natalie Brown P.O. Box 157 Council Offices, Shute End, Wokingham Berkshire, RG40 1WR to arrive on or before 21/04/2000. Written comments submitted will become available for public inspection.

In view of the very large number of planning applications and letters of comment received, it will not normally be possible for an individual reply to observations made. However any comments will be taken into account when the application is determined and you will be notified of the decision.

WITHDRAWN

Dear Mrs Brown,

Ref. Planning application for extension work to:
124 Barkham Road, Wokingham

As discussed we have now revised our drawing to show the hipped roof construction and consequently we wish to receive full planning permission. In a telephone conversation with Mrs Hurst on 11/07/2000, it was agreed that it would be easier, for administrative purposes, to retract the current application and re-submit, this we have done. Please find enclosed new planning application. Mrs Hurst has also informed us that because this is a revision to an existing application it attracts no fee.

The paragraph below list the enclosed supporting documentation, however if you feel that you need further information for processing this application please do not hesitate to contact me.

Enclosed documents are:

Item	Description	Drawing No.	No of Copies
1.	Householder Planning application form	N/A	6
2.	As existing drawings (Site block plan, plans and elevations)	001/001/00A	6
3.	Proposed works drawings (Site block plan, plans and elevations)	001/002/00A	6
4.	Location plans	N/A	6

Yours sincerely

Carl Tagoe.

Dear Sir/Madam,

Ref. Planning application for extension work to:
124 Barkham Road, Wokingham

On receipt of this application, would it be possible if you could give me some indication how long this application will take to process, for my client would like to know as soon as possible if an extension to his house would be allowed. The paragraph below list the enclosed supporting documentation, however If you feel that you need further information for processing this application please do not hesitate to contact me.

Enclosed documents are:

Item	Description	No of Copies
1.	Householder Planning application form	6
2.	As existing drawings (Site block plan, plans and elevations)	6
3.	Proposed works drawings (Site block plan, plans and elevations)	6
4.	Location plans	6

In addition to the above please find enclosed a cheque for the sum of £95.00. for planning fees.

Yours sincerely

Carl Tagoe.
