COMMENTS:

I wish to object to the application. I have read other comments submitted by others and agree with all of their valid reasons. Specifically points regarding the application not meeting the Neighbourhood Plan. Consideration needs to be given to the impact agreement of this application will have to the area of historical significance adjacent to this site as well as the impact it will have on the vulnerable residents in the care home opposite. I fear the any agreement of the specifics in this application will lead to additional outbuildings, temporary residences and hard landscaping not agreed by the council as seen on multiple other gypsy and traveller pitches in the borough. Leading to costly interventions and huge environmental damage which is often not repaired.
