COMMENTS:

I would like to Lodge my Objection to this proposed Development Due to the Environmental impact on this area as it is in a nature reserve and a well known flooding zone.

A spill in this area would be devastating to the environment and water ways in that exact location. also the additional HGV Traffic will have a detrimental impact on our Road infrastructure for residents Schools and other less negatively impacting businesses in the Area.

This company will not bring anything Positive to the local community or environment and must not be granted permission to trade in such an environmentally sensitive area and eco system!
