COMMENTS:

I strongly object to the proposed development at the Prince Brothers site. The proposed location is situated right on top of a nature reserve & delicate ecosystem. The risk to wildlife & aquatic organisms is severe! The whole area floods each year , which only adds to the high probability of a disaster. There is absolutely no need for

Twyford & Charvil to be used for such a huge fuel supply depo. The junction to the site is on a blind spot in an area already dangerous area for swift traffic, regardless of the ignored speed limit. To have such big lorries in & out it would pose a significant risk. More so when carrying a thousand gallons of fuel.

I would hope sincerely that you, as the council, reject this application out of pure common sense.

Regards.

Russell Cleaver.
