COMMENTS:

Helo.

I live at number 17 Elizabeth Rout Close and I am objecting to this application. The land between the 2 fences is amenity land and a ditch which carries water from all our gardens to a holding ditch during the rainy months. It is also used by various wildlife to travel around the area. The fence of number 45 has already been moved to the tree behind my garden and has damage the roots. This tree has a TPO on it and the owner doesn't seem to care. If the tree roots are further damaged due to the ongoing works I am worried that it will fall into my garden or house. The amenity land is supposed to be a buffer between the houses and not a land grab.
