COMMENTS:

Hello.

I live at number 17 Elizabeth Rout Close and I object to this application. When the Applicant started to erect the fence, he removed parts of my fence and installed his new fence against mine. He has also covered over the ditch which is amenity land. I spoke to him while he was doing this and he said he was only going to use the land for growing vegetables in planters, this however now seems like a lie.

This is amenity land and a buffer between the houses and should not be built on? closed off in a land grab. Please enforce your previous case against this and make them remove the fence that is still there!!!
