COMMENTS:

I strongly object to the proposed Hall Farm Development.

Local traffic is already a major issue during the morning and evening rush hours, 2,800 new homes will exacerbate this issue.

This development will impact heavily on Royal Berkshire Hospital.

Even with mitigation measures, the River Loddon will be put at more risk of flooding, impacting current housing on the flood plain.

Whilst ecological enhancement measures have been included, at what cost will this be to the current wild life?
